
Paul F. Mlakar, Ph.D., P.E., F.ASCE

Senior Research Scientist
U.S. Army Research and Development Center

Dr. Paul Mlakar is a Senior Research Scientist with the U.S. Army Corps of Engineers Research and Development Center in Vicksburg, MS. In his career spanning four decades he has studied the response of structures to extreme loadings. He led the ASCE team that examined the response of the Pentagon to the 9/11 crash. He was also a key member of the Interagency Performance Evaluation Taskforce that considered the behavior of the hurricane protection infrastructure in Katrina.
