Access to the MCEER bank of knowledge

Joint Industry/Academic projects

■ The **Bay Bridge** project.

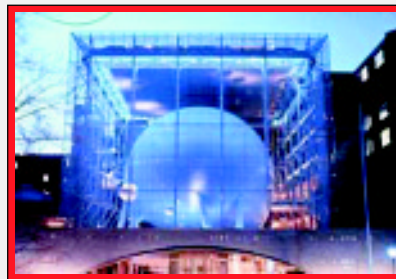

### Company Narrative:

For nearly half a century, Weidlinger Associates has stood for innovation in structural and civil engineering and applied mechanics. The firm serves architects, developers, contractors, and public agency heads who are under increasing pressure to build and restore facilities or bring

products to market quickly at least cost. Innovative engineering to help clients achieve elegance with economy remains the fixed aim of the firm's business.

■ **NYC conference center** (Javitz Center).

■ The **Planetarium** project.
